Independent Accountants' Review Report

To the Board of Directors of Pegatron Corporation :

Introduction

We have reviewed the accompanying consolidated balance sheets of the Pegatron Corporation and its subsidiaries of September 30, 2018 and 2017, and the related consolidated statements of comprehensive income for the three month and the nine month periods then ended, and changes in equity and cash flows for the nine months ended September 30, 2018 and 2017, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standards (“IASs”) 34, “Interim Financial Reporting” endorsed by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our review.

Scope of Review

Except as explained in the Basis for Qualified Conclusion paragraph, we conducted our reviews in accordance with Statement of Auditing Standards 65, “Review of Financial Information Performed by the Independent Auditor of the Entity”. A review of the consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the generally accepted auditing standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As stated in Note 4(c), the consolidated financial statements included the financial statements of certain non-significant subsidiaries, which were not reviewed by independent accountants. These financial statements reflect total assets amounting to \$36,904,913 thousand and \$79,835,034 thousand, constituting 6.51% and 14.48% of consolidated total assets as of September 30, 2018 and 2017, respectively, total liabilities amounting to \$16,280,204 thousand and \$41,831,448 thousand, constituting 4.23% and 11.16% of consolidated total liabilities as of September 30, 2018 and 2017, respectively, and total comprehensive (loss) income amounting to \$(817,710) thousand, \$602,052 thousand, \$(1,862,109) thousand and \$748,164 thousand, constituting (42.13)%, 12.79%, (21.88)% and 10.17% of consolidated total comprehensive income (loss) for the three months and nine months ended September 30, 2018 and 2017, respectively.

Furthermore, as stated in Note 6(i), the other equity accounted investments of the Pegatron Corporation and its subsidiaries in its investee companies of \$258,136 thousand and \$81,195 thousand as of September 30, 2018 and 2017, respectively, and its equity in net earnings (loss) on these investee companies of \$1,905 thousand, \$3,992 thousand, \$20,601 thousand and \$7,241 thousand for the three months and nine months ended September 30, 2018 and 2017, respectively, were recognized solely on the financial statements prepared by these investee companies, but not reviewed by independent accountants.

Qualified Conclusion

Based on our reviews and the review reports of other accountants (please refer to Other Matter paragraph), except for the effects of the adjustments, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and equity accounted investee companies described in the Basis for Qualified Conclusion paragraph above been reviewed by independent accountants, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Pegatron Corporation and its subsidiaries as of September 30, 2018 and 2017, and of its consolidated financial performance for the three months and nine months ended September 30, 2018 and 2017, and its consolidated cash flows for the nine months ended September 30, 2018 and 2017 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IASs 34, “Interim Financial Reporting” endorsed by the Financial Supervisory Commission of the Republic of China.

Other Matter

We did not review the financial statements of certain consolidated subsidiaries, with total assets of \$55,634,024 thousand and \$55,163,797 thousand, representing 9.82% and 10.01% of the related consolidated total assets as of September 30, 2018 and 2017, and net sales of \$9,632,415 thousand, \$9,634,740 thousand, \$27,254,256 thousand and \$25,277,236 thousand, representing 2.99%, 2.86%, 3.12% and 3.10% of the related consolidated total net sales for the three months and nine months ended September 30, 2018 and 2017, respectively. Those financial statements were reviewed by other accountants whose reports have been furnished to us, and our review, insofar as it relates to the amounts included for certain consolidated subsidiaries, are based solely on the reports of the other accountants.

The engagement partners on the review resulting in this independent auditors’ report are Kuo-Yang Tseng and Chi-Lung Yu.

KPMG

Taipei, Taiwan (Republic of China)
November 8, 2018

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors’ review report and the accompanying consolidated financial statements are the partial English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors’ review report and consolidated financial statements, the Chinese version shall prevail.

PEGATRON CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

September 30, 2018 and 2017

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

PEGATRON CORPORATION (the “Company”) was established on June 27, 2007. The Company’s registered office address is located at 5F., No.76, Ligong St., Beitou District, Taipei City 112, Taiwan. In order to enhance competitiveness and boost productivity, the Company resolved to absorb the OEM business from ASUSTek Computer Inc. on January 1, 2008 as part of the Company’s business restructuring. On April 1, 2008, ASUSALPHA Computer Inc. was merged with the Company. The main activities of the Company are to produce, design and sell OEM business. In January 2010, pursuant to the resolutions of the respective Board of Directors, the Company merged with Pegatron International Investment Co., Ltd., effective June 10, 2010. As the surviving entity from this merger, the Company applied for initial public offering (IPO) to TSEC. The Company’s shares were listed on TSEC on June 24, 2010.

In accordance with Article 19 of the Business Mergers and Acquisitions Act, the Company merged with its subsidiary, UNIHAN CORPORATION, pursuant to the resolutions of the Board of Directors in November, 2013.

The consolidated financial statements of the Company as of and for the nine months ended September 30, 2018 comprise the Company and its subsidiaries (together referred to as the “Group” and individually as “Group entities”) and the Group’s interest in associates entities.

(2) Approval date and procedures of the consolidated financial statements:

The accompanying consolidated financial statements were authorized for issue by the Board of Directors on November 8, 2018.

(3) Application of new standards, amendments and interpretations:

- (a) The impact of the International Financial Reporting Standards (“IFRSs”) endorsed by the Financial Supervisory Commission, R.O.C. (“FSC”) which have already been adopted.

The Group has prepared its consolidated financial statements in conformity with the following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2018.

<u>New, Revised or Amended Standards and Interpretations</u>	<u>Effective date per IASB</u>
Amendment to IFRS 2 “Clarifications of Classification and Measurement of Share-based Payment Transactions”	January 1, 2018
Amendments to IFRS 4 “Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts”	January 1, 2018
IFRS 9 “Financial Instruments”	January 1, 2018
IFRS 15 “Revenue from Contracts with Customers”	January 1, 2018
Amendment to IAS 7 “Statement of Cash Flows -Disclosure Initiative”	January 1, 2017

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

<u>New, Revised or Amended Standards and Interpretations</u>	<u>Effective date per IASB</u>
Amendment to IAS 12 “Income Taxes- Recognition of Deferred Tax Assets for Unrealized Losses”	January 1, 2017
Amendments to IAS 40 “Transfers of Investment Property”	January 1, 2018
Annual Improvements to IFRS Standards 2014–2016 Cycle:	
Amendments to IFRS 12	January 1, 2017
Amendments to IFRS 1 and Amendments to IAS 28	January 1, 2018
IFRIC 22 “Foreign Currency Transactions and Advance Consideration”	January 1, 2018

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows:

(i) IFRS 15 “Revenue from Contracts with Customers”

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces the existing revenue recognition guidance, including IAS 18 “Revenue” and IAS 11 “Construction Contracts”. The Group applies this standard retrospectively with the cumulative effect, it need not restate those contracts, but instead, continues to apply IAS 11, IAS 18 and the related Interpretations for comparative reporting period. The Group recognizes the cumulative effect upon the initially application of this Standard as an adjustment to the opening balance of retained earnings on January 1, 2018.

The Group uses the practical expedients for completed contracts, which means it need not restate those contracts that have been completed on January 1, 2018.

The following are the nature and impacts on changing of accounting policies :

1) Sales of goods

For the sale of products, revenue was recognized when the goods are delivered to the *customers’ premises*, which is taken to be the point in time at which the customer accepts the goods and the related risks and rewards of ownership transfer. Revenue is recognized at this point provided that the revenue and costs can be measured reliably, the recovery of the consideration is probable and there is no continuing management involvement with the goods. Under IFRS 15, revenue will be recognized when a customer obtains control of the goods.

For certain contracts that permit a customer to return an item, revenue was recognized when a reasonable estimate of the returns can be made, provided that all other criteria for revenue recognition are met. Otherwise, a revenue recognition is deferred until the return period lapses or a reasonable estimate of returns can be made.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Under IFRS 15, revenue will be recognized for these contracts to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. A refund liability and an asset for recovery will be recognized for these contracts and presented separately in the balance sheet.

2) Impacts on financial statements

The following tables summarize the impacts of adopting IFRS15 on the Group's consolidated financial statements :

	September 30, 2018			January 1, 2018		
	Balances without adoption of IFRS 15	Impact of changes in accounting policies	Balance with adoption of IFRS 15	Balances without adoption of IFRS 15	Impact of changes in accounting policies	Balance with adoption of IFRS 15

(ii) IFRS 9 “Financial Instruments”

IFRS 9 replaces IAS 39 “Financial Instruments: Recognition and Measurement” which contains classification and measurement of financial instruments, impairment and hedge accounting.

As a result of the adoption of IFRS 9, the Group adopted the consequential amendments to IAS 1 “Presentation of Financial Statements” which requires impairment of financial assets to be presented in a separate line item in the statement of profit or loss and OCI. Previously, the Group’s approach was to include the impairment of trade receivables in operating expenses. Additionally, the Group adopted the consequential amendments to IFRS 7 “Financial Instruments: Disclosures” that are applied to disclosures about 2018 but generally have not been applied to comparative information.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The significant changes in accounting policies due to the application of IFRS 9 are as follows :

1) Classification of financial assets and financial liabilities

IFRS 9 contains three principal classification categories for financial assets: measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. The standard eliminates the previous IAS 39 categories of held to maturity, loans and receivables and available for sale. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never bifurcated. Instead, the hybrid financial instrument as a whole is assessed for classification. Please refer to Note 4(h) for an explanation of how the Group classifies and measures financial assets and accounts for related gains and losses under IFRS 9.

The adoption of IFRS 9 did not have any a significant impact on its accounting policies on financial liabilities. Please refer to Note 4(g) for accounting policies applied to financial liabilities beginning January 1, 2018.

2) Impairment of financial assets

IFRS 9 replaces the ‘incurred loss’ model in IAS 39 with a forward-looking ‘expected credit loss’ (ECL) model. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVOCI, but not to investments in equity instruments. Under IFRS 9, credit losses are recognized earlier than they are under IAS 39 – please refer to Note 4(h).

3) Transition

The adoption of IFRS 9 have been applied retrospectively, except as described below,

- Differences in the carrying amounts of financial assets resulting from the adoption of IFRS 9 are recognized in retained earnings and other equity interest as on January 1, 2018. Accordingly, the information presented for 2017 does not generally reflect the requirements of IFRS 9 and therefore is not comparable to the information presented for 2018 under IFRS 9.

- The following assessments have been made on the basis of the facts and circumstances that existed at the date of initial application.

- The determination of the business model within which a financial asset is held.
- The designation and revocation of previous designations of certain financial assets and financial liabilities as measured at FVTPL.
- The designation of certain investments in equity instruments not held for trading as at FVOCI.

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

4) Classification of financial assets on the date of initial application of IFRS 9

The following table shows the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the Group's financial assets as of January 1, 2018. (There is no change in both categories and carrying value of financial liabilities.)

	IAS39		IFRS9	
	Measurement categories	Carrying Amount	Measurement categories	Carrying Amount
Financial Assets				
Cash and equivalents	Loans and receivables	107,444,124	Amortized cost	107,444,124
Debt instruments	Designated as at FVTPL (Note 1)	2,473,128	Mandatorily at FVTPL	2,473,128
Equity instruments	Designated as at FVTPL (Note 2)	322,985	Mandatorily at FVTPL	322,985
	Available-for-sale (Note 3)	836,278	Mandatorily at FVTPL	836,278
	Designated as at FVTPL (Note 4)	28,800	FVOCI	28,800
	Available-for-sale (Note 4)	707,335	FVOCI	707,335
	Carried at cost (Note 5)	279,494	FVOCI	279,494
	Carried at cost (Note 6)	71,015	Mandatorily at FVTPL	71,015
Notes and accounts receivables	Loans and receivables (Note 7)	150,905,085	Amortized cost	150,905,085
Other financial assets	Loans and receivables	1,523,440	Amortized cost	1,523,440

Note 1: Under IAS 39, these debt securities were designated as at FVTPL because they were managed on a fair value basis and their performance was monitored on this basis. These assets have been classified as mandatorily measured at FVTPL under IFRS 9.

Note 2: Under IAS 39, these equity securities were designated as at FVTPL because they were managed on a fair value basis and their performance was monitored on this basis. These assets have been classified as mandatorily measured at FVTPL under IFRS 9.

Note 3: As permitted by IFRS 9, the Group has designated these equity investments at the date of initial application as mandatorily measured at FVTPL. Accordingly, an increase of \$606,270 in retained earnings, and a decrease of \$606,270 in other equity interest were recognized on January 1, 2018.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Note 4: Under IAS 39, these equity securities were designated as at FVTPL because they were managed on a fair value basis and their performance was monitored on this basis. As permitted by IFRS 9, the Group has designated these investments at the date of initial application as measured at FVOCI. Accordingly, a decrease of \$5,850 in retained earnings, and an increase of \$5,850 in other equity interest were recognized on January 1, 2018.

Note 5: These equity securities (including financial assets carried at cost) represent investments that the Group intends to hold for the long term for strategic purposes. As permitted by IFRS 9, the Group has designated these investments at the date of initial application as measured at FVOCI. Accordingly, a decrease of \$274,587 in other equity interest, as well as the increase of \$274,587 in retained earnings were recognized on January 1, 2018.

Note 6: Under IAS 39, these equity securities were measured at cost. As permitted by IFRS 9, the Group has classified these investments at the date of initial application as mandatorily measured at FVTPL.

Note 7: Notes receivables, accounts receivables and other receivables that were classified as loans and receivables under IAS 39 are now classified at amortized cost. An increase of \$1,348 in the allowance for impairment was recognized in opening retained earnings upon transition to IFRS 9 on January 1, 2018.

The following table reconciles the carrying amounts of financial assets under IAS 39 to the carrying amounts under IFRS 9 upon transition to IFRS 9 on 1 January, 2018.

	2017.12.31 IAS 39 Carrying Amount	Reclassifications	Remeasurements	2018.1.1 IFRS 9 Carrying Amount	2018.1.1 Retained earnings	2018.1.1 Other equity

Additions – equity instruments:						
From available-for-sale	-	836,278	-	-	606,270	(606,270)
From financial assets carried at cost	-	71,015	-	-	-	-
Subtraction – equity instruments:						
To FVOCI	-	(28,800)	-	-	-	-
Total	\$ 2,824,913	878,493	-	3,703,406	606,270	(606,270)
Fair value through other comprehensive income						
Beginning balance of available-for-sale (including carried at cost) (IAS 39)	\$ 1,894,122	-	-	-	-	-
Addition – equity instruments:						
From FVTPL	-	28,800	-	-	(5,850)	5,850
Subtraction – equity instruments:						
To FVTPL – required reclassification based on classification criteria	-	(907,293)	-	-	-	-
Total	\$ 1,894,122	(878,493)	-	1,015,629	(5,850)	5,850
Amortized cost						
Beginning balance of accounts receivables, and other financial asset (IAS 39)	\$ 152,428,525	-	-	-	-	-
Adjustments for allowance of impairment for financial assets measured at amortized cost	-	-	(1,348)	-	(1,348)	-
Total	\$ 152,428,525	-	(1,348)	152,427,177	(1,348)	-

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iii) Amendments to IAS 7 “Disclosure Initiative”

The amendments require disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flow and non-cash changes.

To satisfy the new disclosure requirements, the Group present a reconciliation between the opening and closing balances for liabilities with changes arising from financing activities as Note 6(ah).

(b) The impact of IFRS endorsed by FSC but not yet effective

The following new standards, interpretations and amendments have been endorsed by the FSC and are effective for annual periods beginning on or after January 1, 2019 in accordance with Ruling No. 1070324857 issued by the FSC on July 17, 2018:

<u>New, Revised or Amended Standards and Interpretations</u>	<u>Effective date per IASB</u>
IFRS 16 “Leases”	January 1, 2019
IFRIC 23 “Uncertainty over Income Tax Treatments”	January 1, 2019
Amendments to IFRS 9 “Prepayment features with negative compensation”	January 1, 2019
Amendments to IAS 19 “Plan Amendment, Curtailment or Settlement”	January 1, 2019
Amendments to IAS 28 “Long-term interests in associates and joint ventures”	January 1, 2019
Annual Improvements to IFRS Standards 2015–2017 Cycle	January 1, 2019

Except for the following items, the Group believes that the adoption of the above IFRSs would not have any material impact on its consolidated financial statements. The extent and impact of signification changes are as follows:

(i) IFRS 16 “Leases”

IFRS 16 replaces the existing leases guidance, including IAS 17 “Leases”, IFRIC 4 “Determining whether an Arrangement contains a Lease”, SIC-15 “Operating Leases – Incentives” and SIC-27 “Evaluating the Substance of Transactions Involving the Legal Form of a Lease”.

IFRS 16 introduces a single and an on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. In addition, the nature of expenses related to those leases will now be changed since IFRS 16 replaces the straight-line operating lease expense with a depreciation charge for right-of-use assets and interest expense on lease liabilities. There are recognition exemptions for short-term leases and leases of low-value items. The lessor accounting remains similar to the current standard – i.e. the lessors will continue to classify leases as finance or operating leases.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group has completed an initial assessment of the potential impact on its consolidated financial statements, wherein the detailed assessment has yet to be completed. The actual impact of applying IFRS 16 on its financial statements in the period of initial application will depend on future economic conditions, including the Group's discounting rate, the composition of the Group's lease portfolio at that date, the Group's latest assessment of whether it will exercise any lease renewal options, and the extent to which the Group chooses to use practical expedients and recognition exemptions.

So far, the most significant impact identified is that the Group will have to recognize the new assets and liabilities for its operating leases of employees' dormitories, warehouses, and factory facilities, while the amount needs further evaluation. No significant impact is expected for the Group's finance leases. Besides, The Group does not expect the adoption of IFRS 16 to have any impact on its ability to comply with loan covenants.

1) Determining whether an arrangement contains a lease

On transition to IFRS 16, the Group can choose to apply either of the following:

- IFRS 16 definition of a lease to all its contracts; or
- A practical expedient that does not need any reassessment whether a contract is, or contains, a lease.

The Group plans to apply the practical expedient to grandfather the definition of a lease upon transition. This means that it will apply IFRS 16 to all contracts entered into before January 1, 2019 and identified as leases in accordance with IAS 17 and IFRIC 4.

2) Transition

As a lessee, the Group can apply the standard using either of the following:

- Retrospective approach; or
- Modified retrospective approach with optional practical expedients.

On January 1, 2019, the Group plans to initially apply IFRS 16 using the modified retrospective approach. Therefore, the cumulative effect of adopting IFRS 16 will be recognized as an adjustment to the opening balance of retained earnings at January 1, 2019, with no restatement of comparative information.

When applying the modified retrospective approach to leases previously classified as operating leases under IAS 17, the lessee can elect, on a lease-by-lease basis, whether to apply a number of practical expedients on transition. The Group is assessing the potential impact of using these practical expedients.

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

As of the date, the following IFRSs that have been issued by the IASB, but have yet to be endorsed by the FSC :

<u>New, Revised or Amended Standards and Interpretations</u>	<u>Effective date per IASB</u>
Amendments to IFRS 3 "Definition of a Business"	January 1, 2020
Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"	Effective date to be determined by IASB
IFRS 17 "Insurance Contracts"	January 1, 2021

Those which may be relevant to the Group are set out below :

<u>Issuance / Release Dates</u>	<u>Standards or Interpretations</u>	<u>Content of amendment</u>
September 11, 2014	Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"	<p>The amendments address an acknowledged inconsistency between the requirements in dealing with the sale or contribution of assets between an investor and its associate or joint venture.</p> <p>The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business. A partial gain or loss is recognized when a transaction involves assets that do not constitute a business.</p>

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its consolidated financial position and consolidated financial performance. The results, thereof, will be disclosed when the Group completes its evaluation.

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(4) Summary of significant accounting policies:

The following significant accounting policies have been applied consistently to all periods presented in the consolidated financial statements unless otherwise specified.

(a) Statement of compliance

The consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language consolidated financial statements, the Chinese version shall prevail.

These consolidated financial statements have been prepared in accordance with the revised Regulations Governing the Preparation of Financial Reports by Securities Issuers in the Republic of China (hereinafter referred to the Regulations), and guidelines of IAS 34 “Interim Financial Reporting” which are endorsed and issued into effect by FSC, and do not include all of the information required by the Regulations and International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations and SIC Interpretations endorsed and issued into effect by the FSC (hereinafter referred to IFRS endorsed by the FSC) for a complete set of the annual consolidated financial statements.

(b) Basis of preparation

(i) Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis except for the following material items in the balance sheets :

- 1) Financial instruments measured at fair value through profit or loss are measured at fair value (including derivative financial instruments) ;
- 2) Available-for-sale financial assets are measured at fair value (applicable before January 1, 2018) ;
- 3) Financial assets at fair value through other comprehensive income (applicable from January 1, 2018) ;
- 4) The net defined benefit liability is recognized as the present value of the defined benefit obligation less the fair value of plan assets.

(ii) Functional and presentation currency

The functional currency of each Group entities is determined based on the primary economic environment in which the entities operate. The consolidated financial statements are presented in New Taiwan Dollar, which is the Company’s functional currency. All financial information presented in New Taiwan Dollar has been rounded to the nearest thousand.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(c) Basis of consolidation

(i) Principle of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and its subsidiaries. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealized income arising from investment accounted for using equity method is eliminated against the Company invested in its subsidiaries. The accounting treatment for unrealized loss is the same as unrealized income only when there is no indication of impairment.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

(ii) Acquisition of non-controlling interests

Acquisition of non-controlling interests is accounted for as an equity transaction with owners. Under the aforesaid transaction, goodwill is not recognized.

(iii) Subsidiaries

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(iv) Business combination under common control

The business combinations under common control often occur as the group activities are recognized in which the direct ownership of subsidiaries changes but the ultimate parent remains the same. These combinations are treated as the later of either the earliest comparative period in financial statements or the date of common control that requires the restatement of comparative information of prior period. Upon consolidation, assets and liabilities of the acquired entity are recognized at their carrying amount in the consolidated financial statements of owners of the Company. The equity of the consolidated entity is accounted for under the non-controlling interest, and related income and loss are directly recognized in profits attributable to non-controlling interest.

(v) Losing control

When the Group loses control of a subsidiary it derecognizes the assets and liabilities and related equity components of the former subsidiary. Any gain or loss is recognized in profit or loss. Any investment retained in the former subsidiary is measured at its fair value at the date when control is lost. Subsequently, the retained investment is recognized as either investments accounted for using equity method or financial instruments at FVOCI depending on the extent of its impact. (Recognized as available-for-sale financial assets before January 1, 2018)

Note 1 : Since the Group only held 32.81% of voting rights of AZURE WAVE TECHNOLOGY INC., with the remaining 67.19% shares belonging to different shareholders having no intention of exercising their votes collectively, and also, due to the fact that the Group's participation dominated the previous shareholders' meetings, resulting in the Group having a significant control over AZURE WAVE TECHNOLOGY INC., therefore, AZURE WAVE TECHNOLOGY INC., has been included in the consolidated financial statement of the Group.

Note 2 : On March 20, 2018, AZURE WAVE TECHNOLOGY INC. issued common stocks for cash and retired those expired employee restricted shares. In addition, on August 8, 2018, AZURE WAVE TECHNOLOGY INC. reduced its capital by canceling those retired employee restricted shares, resulting in the Group's shareholding ratio in AZURE WAVE TECHNOLOGY INC. decreased from 37.04% to 32.81% .

Note 3 : On February 7, 2018, CASETEK HOLDINGS LIMITED issued common stocks for cash, resulting in the Group's shareholding ratio in CASETEK HOLDINGS LIMITED decreased from 60.47% to 59.31% .

Note 4 : It was liquidated in December 2017.

Note 5 : Lumens Optics reduced, as well as increased, its capital on April 30 and June 25, 2018, respectively. However, the Group did not proportionally increase its investment in Lumens Optics, resulting in its shareholding ratio to decrease from 56.52% to 55.21% .

Note 6 : In October 2017, the Group has restructured, so that the 100% equity ownership of TOPTEK PRECISION INDUSTRY (SUZHOU) CO., LTD. was held by AMA and MAINTEK COMPUTER (SUZHOU) CO., LTD.

Note 7 : It was liquidated in December 2017.

Note 8 : As transferred treasury stock to employees on September 22, 2017, the Group's shareholding ratio in KINSUS INTERCONNECT TECHNOLOGY CORP. (KINSUS) decreased from 39.04% to 39.00%. In addition, on August 28, 2018, KINSUS issued employee restricted shares, resulting in the Group's shareholding ratio decreased to 38.58% .

Note 9 : Since the Group only held 38.58% of voting rights of KINSUS INTERCONNECT TECHNOLOGY CORP. (KINSUS), with the remaining 61.42% shares belonging to different shareholders having no intention of exercising their votes collectively, and also, due to the fact that the Group's participation dominated the previous shareholders' meetings, resulting in the Group having a significant control over KINSUS, therefore, KINSUS has been included in the consolidated financial statements of the Group.

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Note 10 : DIGITEK (CHONGQING) LTD. established CHONGQING ZUANSHUO TRADING CO., LTD. by transferring retained earnings into capital. It was registered on January 12, 2018.

Note 11 : Subsidiary established by the Group in the third quarter of 2018.

Note 12 : It is an insignificant subsidiary, and its financial statements have not been reviewed.

(vii) Subsidiaries excluded from consolidation : None.

(d) Foreign currency

(i) Foreign currency transaction

Transactions in foreign currencies are translated to the respective functional currencies of the Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. The foreign currency gain or loss on monetary items is the difference between amortized cost in the functional currency at the beginning of the period adjusted for the effective interest and payments during the period.

Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Non-monetary items in a foreign currency that are measured based on historical cost are translated using the exchange rate at the date of translation.

Foreign currency differences arising on retranslation are recognized in profit or loss, except for the following accounts which are recognized in other comprehensive income :

- 1) Available-for-sale equity investment (applicable before January 1, 2018) ;
- 2) Equity instruments at fair value through other comprehensive income (applicable from January 1, 2018) ;
- 3) A financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective ; or
- 4) Qualifying cash flow hedges to the extent the hedge is effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to the Group's functional currency at exchange rates at the reporting date. The income and expenses of foreign operations, excluding foreign operations in hyperinflationary economies, are translated to the Group's functional currency at average rate. Foreign currency differences are recognized in other comprehensive income, and are presented in the exchange differences on translation of foreign financial statements in equity.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

However, if the foreign operation is a non-wholly owned subsidiary, then the relevant proportion of the translation difference is allocated to non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes of any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Group disposes of only part of investment in an associate or joint venture that includes a foreign operation while retaining significant or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign currency gains and losses arising from such items are considered to form part of a net investment in the foreign operation and are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current when :

- (i) It is expected to be realized the asset, or intended to be sold or consumed, during the normal operating cycle ;
- (ii) It is held primarily for the purpose of trading ;
- (iii) It is expected to be realized within twelve months after the reporting period ; or
- (iv) The asset is cash and cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when :

- (i) It is expected to be settled within the Group's normal operating cycle ;
- (ii) It is held primarily for the purpose of trading ;
- (iii) The liability is due to be settled within twelve months after the reporting period ; or
- (iv) It does not have an unconditional right to defer settlement for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are assets that are readily convertible to known amounts of cash, and are subject to an insignificant risk of changes in their fair value.

Time deposits are accounted under cash and cash equivalents if they are accord with the definition aforementioned, and are held for the purpose of meeting short-term cash commitment rather than for investment or other purpose.

(g) Financial instruments (applicable before January 1, 2018)

Financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instruments.

(i) Financial assets

The Group classifies financial assets into the following categories : financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial assets.

1) Financial assets at fair value through profit or loss

A financial asset is classified in this category if it is held-for-trading or is designated as such on initial recognition. Financial assets classified as held-for-trading if it is acquired principally for the purpose of selling in the short term. The Group designates financial assets, other than ones classified as held-for-trading, as at fair value through profit or loss at initial recognition under one of the following situations :

- a) Designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise.
- b) Performance of the financial asset is evaluated on a fair value basis.
- c) Hybrid instrument contains one or more embedded derivatives.

At initial recognition, financial assets classified under this category are measured at fair value. Attributable transaction costs are recognized in profit or loss as incurred. Financial assets at fair value through profit or loss are measured at fair value and changes therein, which takes into account any dividend and interest income, are recognized in profit or loss, and included in statement of comprehensive income. A regular way purchase or sale of financial assets is recognized and derecognized, as applicable, using trade date accounting.

Investments in equity instruments that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured, are measured at amortized cost, and are included in financial assets measured at cost.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

2) Available-for sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated available-for-sale or are not classified in any of the other categories of financial assets. At initial recognition, available-for-sale financial assets are recognized at fair value, plus, any directly attributable transaction cost. Subsequent to initial recognition, they are measured at fair value and changes therein, other than impairment losses, interest income calculated using the effective interest method, dividend income, and foreign currency differences on available-for-sale debt instruments, are recognized in other comprehensive income and unrealized gains (losses) on available-for-sale financial assets in equity. When an available-for-sale investment is derecognized, the gain or loss accumulated in equity is reclassified to profit or loss, under other income. A regular way purchase or sale of financial assets is recognized and derecognized, as applicable, using trade date accounting.

Investments in equity instruments that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured, are measured at amortized cost, and are included in financial assets measured at cost.

Dividend income is recognized in profit or loss on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date. Such dividend income is included in other income.

Interest income from investment in bond security is recognized in profit or loss, under other income.

3) Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. At initial recognition, these assets are recognized at fair value, plus, any directly attributable transaction costs. Subsequent to initial recognition, loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses, other than insignificant interest on short-term receivables. A regular way purchase or sale of financial assets is recognized and derecognized, as applicable, using trade date accounting.

Loans and receivables include accounts receivables and other receivables. Interest income is recognized in profit or loss, under other income.

In accordance with Statement of International Accounting Standards No. 39 "Financial instruments Accounting for Transfers of Financial Assets and Extinguishments of Liabilities," a transfer of financial assets or a portion of a financial asset in which the transferor surrenders control over those financial assets is regarded as a sale to the extent that consideration in the transferred assets is received in exchange. The rights to accounts receivable are derecognized after deducting the estimated charges or losses in commercial dispute when all of the following conditions are met.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- a) The rights to accounts receivable have been isolated from the transferor as they are put presumptively beyond the reach of the transferor and its creditors, even in bankruptcy or other receivership.
- b) Each transferee has the right to pledge or exchange the rights to the accounts receivable, and no condition prevents the transferee (or holder) from taking advantage of its right to pledge or exchange and provides more than a trivial benefit to the transferor.
- c) The transferor does not maintain effective control over the rights to the accounts receivable claims through either :
 - i) An agreement that both entitles and obligates the transferor to repurchase or redeem them before their maturity, or
 - ii) The ability to unilaterally cause the holder to return specific rights to the accounts receivable.

Accounts receivable which are assigned but no receipt yet of cash advances are accounted for as other accounts receivable.

4) Impairment of financial assets

Except for financial assets at fair value through profit or loss, financial assets are assessed for impairment at each reporting date. A financial asset is impaired if, and only if, there is objective evidence of impairment as a result of one or more events (a loss event) that occurred subsequent to the initial recognition of the asset and that a loss event (or events) has an impact on the future cash flows of the financial assets that can be estimated reliably.

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Group on terms that the Group would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, adverse changes in the payment status of borrowers or issuers, economic conditions that correlate with defaults or the disappearance of an active market for a security. In addition, for an investment in an equity security, a significant or prolonged decline in its fair value below its cost is accounted for as objective evidence of impairment.

All individually significant receivables are assessed for specific impairment. Receivables that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics. In assessing collective impairment, the Group uses historical trends of the probability of default, the timing of recoveries and the amount of loss incurred, adjusted for management's judgment as to whether current economic and credit conditions are such that the actual losses are likely to be greater or lesser than the one suggested by historical trends.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of its estimated future cash flows discounted at the asset's original effective interest rate.

An impairment loss in respect of a financial asset measured at cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss is not reversible in subsequent periods.

The carrying amount of a financial asset is reduced for an impairment loss, except for trade receivables, in which an impairment loss is reflected in an allowance account against the receivables. When it is determined a receivable is uncollectible, it is written off against the allowance account. Any subsequent recovery from written off receivable is charged to the allowance account. Changes in the allowance accounts are recognized in profit or loss.

Impairment losses on available-for-sale financial assets are recognized by reclassifying the losses accumulated in the fair value reserve in equity to profit or loss.

If, in a subsequent period, the amount of impairment loss on a financial asset measured at amortized cost decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the decrease in impairment loss is reversed through profit or loss, to the extent that the carrying value of the asset does not exceed its amortized cost before the impairment loss was recognized at the reversal date.

Impairment losses recognized on available-for-sale equity security are not reversed through profit or loss. Any subsequent recovery in the fair value of an impaired available-for-sale equity security is recognized in other comprehensive income, and accumulated in equity.

If, in a subsequent period, the fair value of an impaired available-for-sale debt security increases and the increase can be related objectively to an event occurring after the impairment loss was recognized, then impairment loss is reversed against profit or loss.

Impairment losses and recoveries are recognized in profit or loss, under "other gains and losses, net."

5) **Derecognition of financial assets**

The Group derecognizes financial assets when the contractual rights of the cash inflow from the asset are terminated, or when the group transfers substantially all the risks and rewards of ownership of the financial assets.

On partial derecognition of a financial assets, the difference between the carrying amount and the sum of the consideration received or receivable and any cumulative gain or loss that had been recognized in other comprehensive income and presented in other equity account unrealized gains or losses from available for sale financial assets is reclassified to profit or loss, under "other gains and losses, net".

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group separates the part that continues to be recognized and the part that is derecognized, based on the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part derecognized and the sum of the consideration received for the part derecognized and any cumulative gain or loss allocated to it that had been recognized in other comprehensive income is charged to profit or loss.

(ii) Financial liabilities and equity instruments

1) Classification of debt or equity instruments

Debt or equity instruments issued by the Group are classified as financial liabilities or equity instruments in accordance with the substance of the contractual agreement.

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized based on amount of consideration received less the direct issuance cost.

Preference share is classified as equity if it is non-redeemable, or redeemable only at the Group's option. Preference share capital is classified as a financial liability if it is redeemable on a specific date or at the option of the shareholders, or if dividend payments are not discretionary.

Compound financial instruments issued by the Group comprise convertible bonds payable that can be converted to share capital at the option of the holder, when the number of shares to be issued is fixed.

At initial recognition, the liability component of a compound financial instrument is recognized at fair value of a similar liability that does not have an equity conversion option. The equity component is recognized initially based on the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequent to initial recognition.

Interest related to the financial liability is recognized in profit or loss, under non-operating income and expense. On conversion, financial liability is reclassified to equity, without recognizing any gain or loss.

2) Other financial liabilities

At initial recognition, financial liabilities not classified as held-for-trading, or designated as at fair value through profit or loss, which comprise of loans and borrowings, and trade and other payables, are measured at fair value, plus, any directly attributable transaction cost. Subsequent to initial recognition, they are measured at amortized cost calculated using the effective interest method. Interest expense not capitalized as capital cost is recognized in non-operating income and expenses, under finance cost.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Derecognition of financial liabilities

A financial liability is derecognized when its contractual obligation has been discharged or cancelled or expires. The difference between the carrying amount of a financial liability derecognized and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss, and is included in “non-operating income and expenses.”

4) Offsetting of financial assets and liabilities

Financial assets and liabilities are presented on a net basis when the Group has the legally enforceable rights to offset, and intends to settle such financial assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

5) Financial guarantee contract

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder of a loss it incurs because a specified debtor fails to pay on due date in accordance with the original or modified terms of a debt instrument.

At initial recognition, a financial guarantee contracts not classified as financial liabilities at fair value through profit or loss by the Group is recognized at fair value, plus, any directly attributable transaction cost. Subsequent to initial recognition, they are measured at the higher of (a) the amount of contractual obligation determined in accordance with IAS 37 ; or (b) the amount initially recognized less, when appropriate, cumulative amortization recognized in accordance with IAS 18.

(iii) Derivative financial instruments, including hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate fluctuation exposures. At initial recognition, derivatives are recognized at fair value ; and attributable transaction costs are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss, under “non-operating income and expenses.”

When a derivative is designated as a hedging instrument, the timing for recognizing gain or loss is determined based on the nature of the hedging relationship. When the result of the valuation at fair value of a derivative instrument is positive, it is classified as a financial asset ; otherwise, it is classified as a financial liability.

Derivatives linked to investments in equity instruments that do not have a quoted market price in an active market and must be settled by delivery of unquoted equity instruments, are classified as financial assets, which are measured at amortized cost. These derivatives are classified as financial liabilities measured at cost.

Embedded derivatives are separated from the host contract and are accounted for separately when the economic characteristics and risk of the host contract and the embedded derivatives are not closely related, and that the host contract is not measured at fair value through profit or loss.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group designates its hedging instrument, including derivatives, embedded derivatives, and non-derivative instrument for a hedge of a foreign currency risk, as fair value hedge, cash flow hedge, or hedge of a net investment in a foreign operation. Foreign exchange risk of firm commitments are treated as a fair value hedge.

On initial designation of the derivative as a hedging instrument, the Group formally documents the relationship between the hedging instrument and hedged item, including the risk management objectives and strategy in undertaking the hedge transaction and the hedged risk, and whether the hedging instruments are expected to be highly effective in offsetting the changes in the fair value or cash flows of the respective hedged items attributable to the hedged risk.

1) Fair value hedge

Changes in the fair value of a hedging instruments designated and qualified as fair value hedges are recognized in profit or loss, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

If the hedging instrument no longer meets the criteria for hedge accounting, expires or is sold, terminated or exercised, or the designation is revoked, then hedge accounting is discontinued prospectively.

Hedged financial instruments using an effective interest rate is amortized to profit or loss when hedge accounting is discontinued over the period to maturity. The effective rate can discount the adjustment amount to zero at the maturity date.

2) Cash flow hedge

When a derivative is designated as a cash flow hedge, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and presented in equity, under effective portion of cash flow hedge gain (loss). Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss, under “non-operating income and expenses.”

When the hedged item is recognized in profit or loss, the amount accumulated in equity and retained in other comprehensive income is reclassified to profit or loss in the same period or periods during which the hedged item affects profit or loss, and is presented in the same accounting caption with the hedged item recognized in the consolidated statement of comprehensive income.

For a cash flow hedge of a forecasted transaction recognized as a non-financial assets or liabilities, the amount accumulated in other equity – effective portion of cash flow hedge gain (loss) in other comprehensive income is reclassified to the initial cost of the non-financial asset or liability.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(h) Financial assets (applicable from January 1, 2018)

(i) Financial assets

Financial assets are classified into the following categories: measured at amortized cost, fair value through other comprehensive income (FVOCI) and fair value through profit or loss (FVTPL).

The Group shall reclassify all affected financial assets only when it changes its business model for managing its financial assets.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL :

- a) it is held within a business model whose objective is to hold assets to collect contractual cash flows ; and
- b) its contractual terms give rise on specified dates to cash flows that are solely payments of principal amount outstanding.

A financial asset measured at amortized cost is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at amortized cost, which has deducted impairment losses, using the effective interest method. Interest income, foreign exchange gains and losses, and impairment loss, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL :

- a) it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets ; and
- b) its contractual terms give rise on specified dates to cash flows that are solely payments of principal amount outstanding.

Some accounts receivables are held within a business model whose objective is achieved by both collecting contractual cash flows and selling by the Group, therefore, those receivables are measured at FVOCI and presented as accounts receivable.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in other comprehensive income. This election is made on an investment-by-investment basis.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

A financial asset measured at FVOCI is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses, and impairment losses, derived from debt investments are recognized in profit or loss; whereas dividends derived from equity investments are recognized as income in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses of financial assets measured at FVOCI are recognized in OCI. On derecognition, gains and losses accumulated in OCI of debt investments are reclassified to profit or loss. However, gains and losses accumulated in OCI of equity investments are reclassified to retain earnings instead of profit or loss.

Dividend income derived from equity investments is recognized on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets and accounts receivable (except for those presented as accounts receivable but measured at FVTPL). On initial recognition, the Group may irrevocably designate a financial asset, which otherwise meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets in this category are measured at fair value at initial recognition. Attributable transaction costs are recognized in profit or loss as incurred. Subsequent changes that are measured at fair value, which take into account any dividend and interest income, are recognized in profit or loss.

4) Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes :

- a) the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets ;
- b) the performance of the business model, and how the financial assets in the business model are evaluated and reported to the Group's management ;
- c) the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed ;

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- d) the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

- 5) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers :

- a) contingent events that would change the amount or timing of cash flows ;
- b) terms that may adjust the contractual coupon rate, including variable rate features ;
- c) prepayment and extension features ; and
- d) terms that limit the Group's claim to cash flows from specified assets (i.e. non-recourse features).

- 6) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses on financial assets measured at amortized cost (including cash and cash equivalents, notes and accounts receivable, other receivables and other financial assets) and accounts receivable measured at FVOCI.

The Group measures loss allowances at an amount equal to lifetime expected credit loss (ECL), except for the following which are measured as 12-month ECL :

- a) debt securities that are determined to have low credit risk at the reporting date ; and
- b) other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Loss allowance for accounts receivables is always measured at an amount equal to lifetime ECL.

Lifetime ECL is the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL is the portion of ECL that result from default events that is possible within the 12 month after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition, the Group considers reasonable and supportable information that is relevant and available (without undue cost or effort). This includes both quantitative and qualitative information and analysis, based on the Group's historical experience, informed credit assessment and including forward-looking information.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 180 days past due or the borrower is unlikely to pay its credit obligations to the Group in full.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. The difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive. ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is "credit-impaired" when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial assets is credit-impaired includes the following observable data :

- a) significant financial difficulty of the borrower or issuer ;
- b) a breach of contract such as a default or being more than 180 days past due ;
- c) the restructuring of a loan or advance by the Group on terms that the Group would not consider otherwise ;
- d) it is probable that the borrower will enter bankruptcy or other financial reorganization ; or
- e) the disappearance of an active market for a security because of financial difficulties.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognized in other comprehensive income, and the amount of loss allowances (or reversal) is charged to profit or loss.

The gross carrying amount of a financial asset is written off either partially or in full to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

7) Derecognition of financial assets

Financial assets are derecognized when the contractual rights of the cash flows from the assets expire or when the Group transfers substantially all the risks and rewards of ownership of the financial assets.

On derecognition of a debt instrument in its entirety, the difference between its carrying amount and the sum of the consideration received or receivable and any cumulative gain or loss that had been recognized in other comprehensive income and presented in "other equity – unrealized gains or losses on fair value through other comprehensive income", in profit or loss, and presented it in the line item of non-operating income and expenses.

On derecognition of a debt instrument other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognize under continuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognized and the sum of the consideration received for the part no longer recognized and any cumulative gain or loss allocated to it that had been recognized in other comprehensive income is recognized in profit or loss, and presented in the line item of non-operating income and expenses. A cumulative gain or loss that had been recognized in other comprehensive income is allocated between the part that continues to be recognized and the part that is no longer recognized on the basis of the relative fair values of those parts.

(ii) Derivative financial instruments, including hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency and interest rate exposures. Derivatives are recognized initially at fair value, and attributable transaction costs are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss and are included in non-operating income and expenses in the statement of comprehensive income. When a derivative is designated as a hedging instrument, its timing of recognition in profit or loss is determined based on the nature of the hedging relationship. When the fair value of a derivative instrument is positive, it is classified as a financial asset, and when the fair value is negative, it is classified as a financial liability.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Embedded derivatives are separated from the host contract and accounted for separately when the economic characteristics and risk of the non-financial asset host contract and the embedded derivatives are not closely related, and such host contract is not measured at fair value through profit or loss.

The Group designates its hedging instruments, including derivatives, embedded derivatives, and non-derivative instruments for a hedge of a foreign currency risk, as a fair value hedge, cash flow hedge, or hedge of a net investment in a foreign operation. Foreign exchange risks of firm commitments are treated as fair value hedge.

At initial designated hedging relationships, the Group documents the risk management objectives and strategy for undertaking the hedge. The Group also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in the fair value or cash flows of the hedged items and hedging instrument are expected to offset each other.

The Group shall discontinue hedge accounting prospectively only when the hedging relationship (or a part of a hedging relationship) ceases to meet the qualifying criteria (after taking into account any rebalancing of the hedging relationship, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised.

1) Fair value hedges

The gain or loss on the hedging instrument shall be recognized in profit or loss. If the hedged item is an equity instrument that is measured at fair value through other comprehensive income.

The hedged item of not measured at fair value is attributable to the hedged risk with any changes in the fair value. The change in the fair value of the hedging instrument is recognized in profit or loss. The hedged item is a debt instrument that is measured at fair value through other comprehensive income, the hedging gains or losses on the hedged item shall be recognized in profit or loss. However, the hedged item is an equity instrument for which an entity has elected to present changes in fair value in other comprehensive income, those amounts shall remain in other comprehensive income. The hedging gains or losses on the hedged item shall be recognized in other comprehensive income.

When it discontinues hedge accounting for a fair value hedge for which the hedged item is a financial instrument measured at amortized cost that is attributable to the changes in the fair value. Amortized to profit or loss is based on over the period to maturity when hedge accounting is discontinued.

2) Cash flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of changes in the fair value of the derivative is recognized in other comprehensive income and accumulated in "other equity —gains (losses) on hedging instruments". The effective portion of changes in the fair value of the derivative that is recognized in other comprehensive income is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss, and is presented in the line item of non-operating income and expenses.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group designates only the change in fair value of the spot element of the forward exchange contract as the hedging instrument in cash flow hedging relationships. The change in fair value of the forward element of the forward exchange contract is separately accounted for as a cost of hedging and accumulated in a separate component of equity as “other equity —gains (losses) on hedging instruments”.

When the hedged item is recognized in profit or loss, the amount accumulated in equity and retained in other comprehensive income is reclassified to profit or loss in the same period or periods during which the hedged item affects profit or loss, and is presented in the same accounting item with the hedged item recognized in the consolidated statement of comprehensive income. However, for a cash flow hedge of a forecast transaction recognized as a nonfinancial asset or liability, the amount accumulated in “other equity —gains (losses) on hedging instruments” and retained in other comprehensive income is reclassified as the initial cost of the nonfinancial asset or liability. In addition, if that amount is a loss and the Group expects that all or a portion of that loss will not be recovered in future periods, it shall immediately reclassify the amount into profit or loss.

When hedge accounting for cash flow hedges is discontinued, the amount that has been accumulated in the cash flow hedge reserve (and the costs of hedging reserve) remains in equity until the hedged future cash flows are no longer expected to occur. Otherwise, that amount would be adjusted within the carrying amount of the non-financial item. For other cash flow hedges, the amount is reclassified to profit or loss in the same period or in the periods as the hedged expected future cash flows affect the profit or loss. However, if the hedged future cash flows are no longer expected to occur, the amount shall immediately be reclassified from cash flow hedge reserve (and the cost of hedging reserve) to profit or loss.

(i) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The replacement cost of raw material is its net realizable value.

(j) Investment in associates

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Significant influence is presumed to exist when the Group holds between 20% and 50% of the voting power of another entity.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of investment includes transaction costs. The carrying amount of investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group's share of the profit or loss and other comprehensive income of investments accounted for using equity method are included, after adjustments to align the said investees' accounting policies with those of the Group, in the consolidated financial statements from the date that significant influence commences until the date that significant influence ceases.

Unrealized profits resulting from the transactions between the Group and an associate are eliminated to the extent of the Group's interest in the associate. Unrealized losses on transactions with associates are eliminated in the same way, except to the extent that the underlying asset is impaired.

When the Group's share of losses exceeds its interest in associates, the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee.

(k) Investment property

Investment property is a property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes. Investment property is measured at cost on initial recognition and subsequently at fair value with any change therein recognized in profit or loss.

Cost includes expenditure that is directly attributable to the acquisition of the investment property. The cost of self-constructed investment property includes the cost of raw materials and direct labor, and any other costs directly attributable to bringing the investment property to a working condition for their intended use and capitalized borrowing costs.

Depreciation is provided over the estimated economic lives using the straight-line method. Land has an unlimited useful life and therefore is not depreciated. The estimated useful lives for the current and comparative years of significant items of investment properties are as follows :

Buildings	20 years
-----------	----------

When the use of an investment property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

(l) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributed to the acquisition of the asset. The cost of a self-constructed asset comprises material, labor, any cost directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located, and any borrowing cost that eligible for capitalization. Cost also includes transfers from equity of any gain or loss on qualifying cash flow hedges of foreign currency purchases of property, plant and equipment. The cost of the software is capitalized as part of the property, plant and equipment if the purchase of the software is necessary for the property, plant and equipment to be capable of operating.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item shall be depreciated separately.

The gain or loss arising from the derecognition of an item of property, plant and equipment is determined based on the difference between the net disposal proceeds, if any, and the carrying amount of the item, and is recognized in profit or loss, under other gains and losses.

(ii) Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owner-occupied to investment property.

(iii) Subsequent cost

Subsequent expenditure is capitalized only when it is probable that future economic benefits associated with the expenditure will flow to the Group. The carrying amount of those parts that are replaced is derecognized. Ongoing repairs and maintenance is expensed as incurred.

(iv) Depreciation

Depreciation is calculated on the depreciable amount of an asset using the straight-line basis over its useful life. The depreciable amount of an asset is determined based on the cost less its residual value. Items of property, plant and equipment with the same useful life may be grouped in determining the depreciation charge. The remainder of the items may be depreciated separately. The depreciation charge for each period is recognized in profit or loss.

The depreciable amount of a leased asset is allocated to each accounting period during the period of expected use on a systematic basis consistent with the depreciation policy the lessee adopts for depreciable assets that are owned. If there is reasonably certainty that the lessee will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the lease term and its useful life.

Land has an unlimited useful life and therefore is not depreciated.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows :

Buildings	1-50 years
Machinery	1-10 years
Instrument equipment	2-10 years
Office and other equipment	2-10 years
Miscellaneous equipment	1-25 years

Depreciation methods, useful lives, and residual values are reviewed at each reporting date. If expectation of useful life differs from the previous estimate, the change is accounted for as a change in an accounting estimate.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(m) Leased assets

(i) Lessor

Leased asset under finance lease is recognized on a net basis as lease receivable. Initial direct costs incurred in negotiating and arranging an operating lease is added to the net investment of the leased asset. Finance income is allocated to each period during the lease term in order to produce a constant periodic rate of interest on the remaining balance of the receivable.

Lease income from operating lease is recognized in profit or loss on a straight-line basis over the lease term. Initial direct costs incurred in negotiating and arranging an operating lease is added to the carrying amount of the leased asset and recognized as an expense over the lease term on the same basis as the lease income. Incentives granted to the lessee to enter into the operating lease are spread over the lease term on a straight-line basis so that the lease income received is reduced accordingly.

Contingent rents are recognized as income in the period when the lease adjustments are confirmed.

(ii) Lessee

Leases in which the Group assumes substantially all of the risks and rewards of ownership are classified as finance leases. On initial recognition, the lease asset is measured at an amount equal to the lower of its fair value and the present of the minimum lease payments. Subsequent to initial recognition, the asset is accounted for in accordance with the accounting policy applicable to the asset.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term in order to produce a constant periodic rate of interest on the remaining balance of the liability.

Other leases are accounted for operating leases and the lease assets are not recognized in the Group's consolidated balance sheets.

Payments made under operating lease (excluding insurance and maintenance expenses) are recognized in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognized as an integral part of the total lease expense, over the term of the lease.

Contingent rent is recognized as expense in the periods in which they are incurred.

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease, which involves the following two criteria :

- 1) The fulfillment of the arrangement is dependent on the use of a specific asset or assets ;
and
- 2) The arrangement contains a right to use the asset.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

At inception or on reassessment of the arrangement, if an arrangement contains a lease, that lease is classified as a finance lease or an operating lease. The Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payment reliably, then an asset and a liability are recognized at an amount equal to the fair value of the underlying asset. Subsequently, the liability is reduced as payments are made and an imputed finance cost on the liability is recognized using the Group's incremental borrowing rate. If the Group concludes for an operating lease that it is impracticable to separate the payment reliably, then treat all payments under the arrangement as lease payments, and disclose the situation accordingly.

Prepaid lease payments represent land use rights under long-term operating lease arrangement and are expensed equally over 38 to 67 years.

(n) Intangible assets

(i) Goodwill

1) Recognition

Goodwill arising from the acquisition of subsidiaries is recognized as intangible assets.

2) Measurement

Goodwill is measured at its cost less impairment losses. Investments in associates are accounted for using the equity method. The carrying amount of the investment in associates includes goodwill, which kind of investment of impairment losses are recognized as a part of the carrying amount of the investment, not allocated to goodwill and any other assets.

(ii) Other intangible assets

Other intangible assets that are acquired by the Group are measured at cost less accumulated amortization and any accumulated impairment losses.

(iii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(iv) Amortization

Depreciable amount of intangible asset is calculated based on the cost of an asset less its residual values.

Amortization is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill and intangible assets with indefinite useful life, from the date when they are made available for use. The estimated useful lives of intangible assets for the current and comparative periods are as follows :

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Computer software cost	0-10 years
Trademark rights	5 years
Intangible assets in development	1-10 years

The residual value, the amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each reporting date. Any change thereof is accounted for as a change in accounting estimate.

(o) Impairment – Non-financial assets

The Group assesses non-financial assets for impairment (except for inventories, deferred income tax assets and employee benefits) at every reporting date, and estimates its recoverable amount. If it is not possible to determine the recoverable amount (fair value less cost to sell and value in use) for the individual asset, then the Group will have to determine the recoverable amount for the asset's cash-generating unit (CGU).

The recoverable amount for individual asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use. If, and only if, the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Such is deemed as an impairment loss, which is recognized immediately in profit or loss.

The Group assess at the end of each reporting period whether there is any indication that an impairment loss recognized in prior periods for an asset other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amount of that asset is estimated. An impairment loss recognized in prior periods for an asset other than goodwill is reversed if, and only if, there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. In this case, the carrying amount of the asset is increased to its recoverable amount by reversing an impairment loss.

Notwithstanding whether indicators exist, goodwill and intangible assets with indefinite useful lives or those not yet in use are required to be tested at least annually. Impairment loss is recognized if the recoverable amount is less than the carrying amount.

For the purpose of impairment testing, goodwill acquired in a business combination, from the acquisition date, is allocated to each of the acquirer's cash-generating units, or groups of cash-generating units, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or group of units. If the carrying amount of the cash-generating units exceeds the recoverable amount of the unit, impairment loss is recognized and is allocated to reduce the carrying amount of each asset in the unit. Reversal of an impairment loss for goodwill is prohibited.

(p) Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and an outflow of economic benefits is possibly required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Allowances for sales returns and allowances are applied in accordance with IFRS 15 beginning January 1, 2018. Please refer to Note 4(s) for details.

(q) Treasury stock

Repurchased shares are recognized as treasury shares (a contra-equity account) based on its repurchase price (including all directly accountable costs), net of tax. Gains on disposal of treasury shares are accounted for as Capital Reserve – Treasury Shares Transactions. Losses on disposal of treasury shares are offset against existing capital reserve arising from similar types of treasury shares. If the capital reserve is insufficient, such losses are charged to retained earnings. The carrying amount of treasury shares is calculated using the weighted average method for different types of repurchase.

If treasury shares are cancelled, Capital Reserve – Share Premiums and Share Capital are debited proportionately. Gains on cancellation of treasury shares are charged to capital reserves arising from similar types of treasury shares. Losses on cancellation of treasury shares are offset against existing capital reserves arising from similar types of treasury shares. If capital reserve is insufficient such losses are charged to retained earnings.

Company shares that are owned by the Company's subsidiaries are treated as treasury stock.

(r) Revenue (applicable before January 1, 2018)

(i) Goods sold

Revenue from the sale of goods in the course of ordinary activities is measured at fair value of the consideration received or receivable, net of returns, trade discounts and volume rebates. Revenue is recognized when persuasive evidence exists, usually in the form of an executed sales agreement, that the significant risks and rewards of ownership have been transferred to the customer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, there is no continuing management involvement with the goods, and the amount of revenue can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognized as a reduction of revenue as the sales are recognized. Allowances for sales returns and allowances are estimated and recognized in provisions based on historical experiences when goods are sold.

The timing of the transfers of risks and rewards varies depending on the individual terms of the sales agreement.

(ii) Service

Revenue from services rendered is recognized in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to surveys of work performed. Only when the result of the transactions is difficult to estimate, revenues are recognized within the cost that are very possibly recovered.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(s) Revenue from contracts with customers (applicable from January 1, 2018)

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

(i) Sale of good

The Group recognizes revenue when control of the products has transferred, being when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group grants its main customers the right to return the product within certain period. Therefore, the Group reduces its revenue by the amount of expected returns and discounts, and recognizes a refund liability and a right to the returned goods. Accumulated experience is used to estimate such returns and discounts at the time of sale. Also, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. At each reporting date, the Group reassesses the estimated amount of expected returns and discounts.

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

(ii) Service

Revenue from providing services is recognized in the accounting period in which performance obligation is satisfied.

(iii) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the group does not adjust any of the transaction prices for the time value of money.

(t) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognized as an employee benefit expense in profit or loss in the periods during which services are rendered by employees.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Defined benefit plans

Pension cost for an interim period is calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of prior financial year, adjusted for significant market fluctuations since that time and for significant curtailments, settlements, or other significant one-off events.

(iii) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognized for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(u) Share-based payment

The grant-date fair value of share-based payment awards granted to employee is recognized as employee expenses, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the awards. The amount recognized as an expense is adjusted to reflect the number of awards which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of award that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognized as an expense with a corresponding increase in liabilities, over the period that the employees become unconditionally entitled to payment. The liability is re-measured at each reporting date and settlement date. Any change in the fair value of the liability is recognized as personnel expenses in profit or loss.

The grant date of share-based payment is the record date of capital increase passed by shareholders' meeting.

(v) Income Taxes

Tax expense in the interim financial statements is measured and disclosed according to paragraph B12 of IAS 34 "Interim Financial Reporting."

Income tax expense for the period is best estimated by multiplying pretax income for the interim reporting period with the effective annual tax rate as forecasted by management. It is recognized fully as tax expense for the current period.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

For a change in tax rate that is substantively enacted in an interim period, the effect of the change should immediately be recognized in the interim period in which the change occurs.

Temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases are measured based on the tax rates that have been enacted or substantively enacted at the time of the asset or liability is recovered or settled and recognized directly in equity or other comprehensive income as tax expense.

(w) Business combination

Goodwill is measured at the consideration transferred less amounts of the identifiable assets acquired and the liabilities assumed (generally at fair value) at the acquisition date. If the amounts of net assets acquired or liabilities assumed exceeds the acquisition price, the Group shall re-assess whether it has correctly identified all of the assets acquired and liabilities assumed, and recognize a gain for the excess.

If the business combination achieved in batches, non-controlling equity interest is measured either at fair value at acquisition-date or at the share of the acquirer's identifiable net assets in each acquisition.

In a business combination achieved in batches, the previously held equity interest in the acquiree at its acquisition-date fair value is re-measured and the resulting gain or loss, if any, is recognized in profit or loss.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, provisional amounts for the items for which the accounting is incomplete are reported in the Group's financial statements. During the measurement period, the provisional amounts recognized are retrospectively adjusted at the acquisition date, or additional assets or liabilities are recognized to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The measurement period shall not exceed one year from the acquisition date.

All transaction costs relating to business combination are recognized immediately as expenses when incurred, except for the issuance of debt or equity instruments.

Business combinations under common control are accounted in the later date of the earliest period financial reports are expressed and the establishment date of common control. Assets and liabilities of the merged entities are recognized at their carrying amount in the non-consolidated financial statements.

(x) Government grant

A government grant is recognized only when there is reasonable assurance that the entity will comply with any conditions attached to the grant and the grant will be received.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The grant is recognized as income over the period necessary to match them with the related costs, for which they are intended to compensate, on a systematic basis. If the grant is used for reimburse loss and expenses that have happened or for immediate financial aid for the Company and no future related cost, it can be recognized gain at the time the Company acquires.

A grant relating to assets is presented as deferred income. If a grant is related to depreciable assets, the grant is recognized over the useful life of the assets and for a grant related to a non-depreciable asset, the grant is credited to income over the same period over which the cost is charged to income.

(y) Earnings per share

Disclosures are made of basic and diluted earnings per share attributable to ordinary equity holders of the Company. The basic earnings per share is calculated based on the profit attributable to the ordinary shareholders of the Company divided by weighted average number of ordinary shares outstanding. The diluted earnings per share is calculated based on the profit attributable to ordinary shareholders of the Company, divided by weighted average number of ordinary shares outstanding after adjustment for the effects of all potentially dilutive ordinary shares, such as remuneration of employees and employee stock options.

(z) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may incur revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the consolidated financial statements in conformity with the Regulations and IFRSs (in accordance with IAS 34 "Interim Financial Reporting" and endorsed by the FSC) requires management to make judgments, estimates and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The preparation of the consolidated financial statements, estimates and underlying assumptions are reviewed on an ongoing basis which are in conformity with the consolidated financial statements for the year ended December 31, 2017. For the related information, please refer to Note 5 of the consolidated financial statements for the year ended December 31, 2017.

(Continued)

Beneficiary certificates	-	<u>2,473,128</u>	<u>2,259,911</u>
Total	<u>\$ 3,394,958</u>	<u>2,824,913</u>	<u>2,501,318</u>

- (i) Please refer to Note 6(ac) for re-measurement at fair value recognized in profit or loss.
- (ii) Please refer to Note 6(ae) for credit risk and market risk.
- (iii) The aforesaid financial assets were not pledged as collateral.

(c) Fair value through other comprehensive income

	<u>September 30, 2018</u>
Equity instruments at fair value through other comprehensive income :	
Shares of stock of listed companies	\$ 528,777
Shares of stock of unlisted companies	150,000
Shares of stock of overseas unlisted companies (USD8,492 thousand dollars)	<u>129,494</u>
Total	<u>\$ 808,271</u>

- (i) Equity instruments at fair value through other comprehensive income

The Group has applied IFRS 9 from January 1, 2018. The Group re-estimate and holds these equity instruments, which are not held for trading at designated fair value through other comprehensive income, for long-term strategic purposes. These investments were recognized as available-for-sale financial assets, financial assets carried at cost and financial assets at fair value through profit or loss on December 31, 2017, and September 30, 2017.

For the nine months ended September 30, 2018 the Group has recognized dividend income of \$28,503 from equity instruments designated at fair value through other comprehensive income. Please refer to Note 6 (ac) for details.

No strategic investments were disposed for the three months and the nine months ended September 30, 2018, and there were no transfers of any cumulative gain or loss within equity relating to these investments.

- (ii) Please refer to Note 6(ae) for credit risk and market risk.
- (iii) The aforesaid financial assets were not pledged as collateral.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(d) Available-for-sale financial assets

	<u>December 31, 2017</u>	<u>September 30, 2017</u>
Current available-for-sale financial assets		
Shares of stock of overseas listed companies	<u>\$ 384,782</u>	<u>390,370</u>
Non-current available-for-sale financial assets		
Shares of stock of listed companies	\$ 721,071	770,488
Equity securities-common stock	<u>437,760</u>	<u>342,000</u>
Total	<u>\$ 1,158,831</u>	<u>1,112,488</u>

- (i) For the three months and the nine months ended September 30, 2017, the unrealized gain on available-for-sale financial assets amounted to \$242,762 and \$475,285.
- (ii) The aforesaid investments were recognized as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income on September 30, 2018. Please refer to Notes 6(b) and (c) for details.
- (iii) Please refer to Note 6(ae) for credit risk and market risk.
- (iv) Please refer to Note 6(ac) for gain or loss arising from disposal of investments.
- (v) The aforesaid financial assets were not pledged as collateral.

(e) Financial assets carried at cost

	<u>December 31, 2017</u>	<u>September 30, 2017</u>
Non-current financial assets carried at cost		
Equity securities-common stock	\$ 152,853	263,450
Equity securities-preferred stock	<u>197,656</u>	<u>205,632</u>
Total	<u>\$ 350,509</u>	<u>469,082</u>

- (i) The aforementioned investments held by the Group were measured at cost less impairment as of December 31 and September 30, 2017, given the range of reasonable fair value estimates is large and the probability for each estimate cannot be reasonably determined ; therefore, the Group management had determined that the fair value cannot be measured reliably and classified as financial assets measured at cost. These investments were classified as fair value through other comprehensive income and fair value through profit or loss as of September 30, 2018. Please refer to Notes 6(b) and (c) for further information.
- (ii) After evaluating the carrying value and recoverable amount of these investments, impairment loss of \$0 was recognized for the three months and the nine months ended September 30, 2017. The accumulated impairment loss were \$275,384 and \$254,811 as of December 31, 2017 and September 30, 2017, respectively.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (iii) Please refer to Note 6(ae) for credit risk and market risk.
- (iv) The aforesaid financial assets were not pledged as collateral.
- (f) Notes and accounts receivable, net

- (i) The components of notes and accounts receivables were as follows :

	<u>September 30, 2018</u>	<u>December 31, 2017</u>	<u>September 30, 2017</u>
Notes receivables from operating activities	\$ 47,948	52,010	55,502
Accounts receivables-measured at amortized cost	147,541,920	151,085,518	193,679,555
Accounts receivables-fair value through other comprehensive income	20,543,325	-	-
Less : Allowance for impairment	<u>1,757,870</u>	<u>1,723,316</u>	<u>1,745,910</u>
	<u>\$ 166,375,323</u>	<u>149,414,212</u>	<u>191,989,147</u>

The Group assesses its portion account receivables held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and therefore such assets are recognized as accounts receivables-fair value through other comprehensive income since January 1, 2018.

- (ii) Credit loss

The Group applies the simplified approach to provide for the loss allowance used for expected credit losses, which permit the use of lifetime expected loss provision for all receivables on September 30, 2018. To measure the expected credit losses, notes and accounts receivables have been grouped based on shared credit risk characteristics and the days past due, as well as forward looking information, including overall economic environment and related industrial information.

The loss allowance provision as of September 30, 2018 was determined as follows :

	<u>Gross carrying amount</u>	<u>Expected loss rate</u>	<u>Loss allowance provision</u>
Current	\$ 164,799,033	0%~1%	(80,171)
Overdue 0 to 30 days	1,489,420	1%~30%	(45,306)
Overdue 31 to 120 days	163,114	1%~100%	(16,113)
Overdue 121 to 365 days	68,388	1%~100%	(3,042)
Over 365 days past due	<u>1,613,238</u>	100%	<u>(1,613,238)</u>
	<u>\$ 168,133,193</u>		<u>(1,757,870)</u>

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

As of December 31, 2017 and September 30, 2017, the Group applies incurred loss model to consider the loss allowance provision of notes and accounts receivable. As of December 31, 2017 and September 30, 2017, the aging analysis of notes and accounts receivable which were past due but not impaired was as follows :

	<u>December 31, 2017</u>	<u>September 30, 2017</u>
Current	\$ 146,378,342	191,019,245
Overdue 0 to 30 days	2,328,665	854,260
Overdue 31 to 120 days	151,096	167,526
Overdue 121 to 365 days	282,471	123,634
Over 365 days past due	<u>1,996,954</u>	<u>1,570,392</u>
	<u>\$ 151,137,528</u>	<u>193,735,057</u>

The movement in the allowance for notes and accounts receivable was as follows :

	<u>For the nine months ended September 30</u>		
	<u>2018</u>	<u>2017</u>	
		<u>Individually assessed impairment</u>	<u>Collectively assessed impairment</u>
Balance on January 1 (Under IAS 39)	\$ 1,723,316	57,571	1,838,151
Adjustment on initial application of IFRS 9	<u>1,348</u>		
Balance on January 1 (Under IFRS 9)	1,724,664		
Impairment losses recognized	39,193	53,346	12,726
Impairment losses reversed	(8,677)	-	(206,501)
Amounts written off	-	-	(1,224)
Foreign exchange losses (gains)	<u>2,690</u>	<u>(4,004)</u>	<u>(4,155)</u>
Balance on September 30	<u>\$ 1,757,870</u>	<u>106,913</u>	<u>1,638,997</u>

The aforesaid financial assets were not pledged as collateral.

- (iii) Please refer to Note 6(ae) for the Group's notes receivable and accounts receivable exposure to credit risk and currency risk.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(iv) Accounts receivable factoring

Accounts receivable which are transferred in accordance with derecognition standards of IFRS are deemed as sale of accounts receivable. As of September 30, 2018, December 31, 2017 and September 30, 2017, the Company sold its accounts receivable without recourse as follows :

September 30, 2018						
Purchaser	Assignment Facility	Factoring Line (thousands)	Advanced Amount (thousands)	Collateral	Significant Factoring Terms	Derecognition Amount
ANZ (Note)	\$ <u>11,121,467</u>	USD <u>1,200,000</u>	USD <u>364,340</u>	None	The accounts receivable factoring is without recourse but the seller still bears the risks except for eligible obligor's insolvency.	\$ <u>11,121,467</u>

December 31, 2017						
Purchaser	Assignment Facility	Factoring Line (thousands)	Advanced Amount (thousands)	Collateral	Significant Factoring Terms	Derecognition Amount
ANZ (Note)	\$ <u>2,976,000</u>	USD <u>1,200,000</u>	USD <u>100,000</u>	None	The accounts receivable factoring is without recourse but the seller still bears the risks except for eligible obligor's insolvency.	\$ <u>2,976,000</u>

September 30, 2017						
Purchaser	Assignment Facility	Factoring Line (thousands)	Advanced Amount (thousands)	Collateral	Significant Factoring Terms	Derecognition Amount
ANZ (Note)	\$ <u>-</u>	USD <u>1,200,000</u>	USD <u>-</u>	None	The accounts receivable factoring is without recourse but the seller still bears the risks except for eligible obligor's insolvency.	\$ <u>-</u>

Note : In October 2016, the Company signed a one year joint accounts receivable factoring agreement with ANZ Bank and six other banks where each bank will factor on pro-rata basis.

For the three months and the nine months ended September 30, 2018 and 2017, the Group recognized a fee and interest on bank advance payment of \$18,067, \$8,489, \$49,080 and \$42,618, respectively, from the factoring of accounts receivable, which was accounted under finance costs in the statement of comprehensive income.

As of September 30, 2018, December 31, 2017 and September 30, 2017, KINSUS INTERCONNECT TECHNOLOGY CORP. sold its accounts receivable without recourse as follows :

September 30, 2018						
Purchaser	Assignment Facility	Factoring Line (thousands)	Advanced Amount	Collateral	Significant Factoring Terms	Derecognition Amount
Mega International Commercial Bank	\$ <u>256,085</u>	USD <u>30,000</u>	\$ <u>-</u>	None	The accounts receivable factoring is without recourse	\$ <u>256,085</u>

(Continued)

- (ii) KINSUS INTERCONNECT TECHNOLOGY CORP. and its subsidiaries completed a series of farm land purchases covering a total land area of 36,115.24 square meters in the name of KINSUS' s chairman instead of KINSUS, due to the restriction imposed by the local government.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

- (iii) For the nine months ended September 30, 2018, KINSUS INTERCONNECT TECHNOLOGY CORP. and its subsidiaries had written the carrying amount of certain property, plant and equipment to their recoverable amount and recognized an impairment loss of \$23,782. For the nine months ended September 30, 2017, KINSUS and its subsidiaries reassessed their impairment following certain changes to their plans. The recoverable amount exceeded its carrying amount by \$18,315, which was reversed. The recoverable amount of CGU was estimated based on its value-in-use.
- (iv) For the three months and the nine months ended September 30, 2017, CASETEK CAYMAN and its subsidiaries recognized an impairment loss of \$234 and \$47,230, respectively, on damaged property, plant and equipment to be disposed. In addition, CASETEK CAYMAN and its subsidiaries sold damaged equipment at selling price exceeding the carrying amount by \$929, which was recognized as a reversal gain for the three months and the nine months ended September 30, 2017.
- (v) Please refer to Note 6(ac) for gain and loss on disposal of property, plant and equipment.
- (vi) Please refer to Note 8 for details of the property, plant and equipment pledged as collateral.
- (l) Investment property

	Buildings
Carrying amounts:

(i) Borrowing and repayment

In consideration of the operating situation and the terms of the loan agreement, the Group repaid the long-term loans of \$401,665 and \$2,921,213 for the nine months ended September 30, 2018 and 2017. In addition, the Group proceeded from long-term loans of \$4,342,000 and \$5,718,296 for the nine months ended September 30, 2018 and 2017, respectively. Please refer to Note 6(ac) for interest expenses. Please refer to Note 6(m) of the consolidated financial statements for the year ended December 31, 2017 for other related information.

(ii) Securities for bank loans

Please refer to Note 8 for details of the related assets pledged as collateral.

(iii) Loan covenants

1) On August 1, 2013, the Company signed a syndicated loan agreement with a total credit line of \$12,000,000. According to the agreement, the Company must comply with certain financial covenants, such as current ratio, debt ratio, tangible net assets, and interest coverage ratio. Compliance with the aforesaid financial covenants is determined on the reviewed quarterly consolidated financial statements (March 31, June 30 and September 30) and audited annual (December 31) stand alone financial statements of the Company and consolidated financial statements of the Group.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

If the aforesaid covenants are breached, the syndicate banks will, depending on the circumstances, based on the majority decision of the syndicate banks to either suspend the subsequent credit usage or demand an immediate repayment.

- 2) On January 3, 2018 and January 30, 2015, CASETEK CAYMAN signed a USD360,000 and USD300,000 thousand worth of credit facility in the form of credit loan with multiple banks, respectively. According to the credit loan facility agreements, during the loan repayment periods, CASETEK CAYMAN must comply with certain financial covenants, such as current ratio, debt ratio, interest coverage ratio and tangible net assets, based on its audited annual consolidated financial statements (December 31).

The compliance with the aforesaid covenants will be examined annually based on the audited CASETEK CAYMAN annual consolidated financial statements.

As of September 30, 2018, December 31, 2017 and September 30, 2017, the Group was in compliance with the above financial covenants. Please refer to Note 6(m) of the consolidated financial statements for the year ended December 31, 2017 for other related information.

(q) Bonds payable

- (v) Share capital and other interests

Except for the following, there were no significant changes in capital and reserves for the nine months ended September 30, 2018 and 2017. Please refer to Note 6(s) of the consolidated financial statements for the year ended December 31, 2017 for other related information.

- (i) Nominal ordinary shares

The Company issued restricted shares of stock totaling 37,808 thousand shares to employees for the nine months ended September 30, 2017.

For the nine months ended September 30, 2018 and 2017, the Company had retired 1,344 and 638 thousand shares, respectively, of restricted stock to employees. Therefore, the authorized capital of the Company consisted of both 3,000,000 thousand shares, with par value of \$10 per share, and its outstanding capital consisted of 2,612,746, 2,614,090 and 2,612,339 thousand common shares of stock, as of September 30, 2018, December 31, 2017 and September 30, 2017, respectively.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

As of September 30, 2018, December 31, 2017 and September 30, 2017, the restricted company shares of stock issued to employees have expired, of which 369, 194 and 441 thousand shares, respectively, have not been retired.

(ii) Global depositary receipts

As of September 30, 2018, December 31, 2017 and September 30, 2017, the Company has listed, in total, 2,820, 10,945 and 10,190 thousand units of GDR, respectively, on the Euro MTF market of the Luxembourg Stock Exchange. As each unit of these GDRs represents 5 common shares of the Company, the Company has listed company shares totaling 14,099, 54,724 and 50,950 thousand shares of stock, respectively.

(iii) Capital surplus

The components of the capital surplus were as follows :

	<u>September 30, 2018</u>	<u>December 31, 2017</u>	<u>September 30, 2017</u>
From issuance of share capital	\$ 64,618,602	63,209,502	63,207,800

(iv) Retained earnings

The Company's Articles of Incorporation require that after-tax earnings shall first be offset against any deficit, and 10% of the balance shall be set aside as legal reserve. The appropriation for legal reserve is discontinued when the balance of the legal reserve equals the total authorized capital. Aside from the aforesaid legal reserve, the Company may, under its Articles of Incorporation or as required by the government, appropriate for special reserve. The remaining balance of the earnings, if any, may be appropriated according to a resolution of a shareholder's meeting.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

In order to bring about stability in the payment of dividends, the Company distributes dividends depending on the level of earnings of each year. The Company is facing a rapidly changing industrial environment. In consideration of the Company's long-term operating plan and funding needs, the Company adopts a stable dividends policy. Therefore, dividend distributions should not be less than 10% of distributable earnings. The Company distributes dividends of at least 10% of the aggregate dividends, if the distributions include cash dividends.

1) Legal reserve

In accordance with the Amended Companies Act 2012, 10 percent of net income should be set aside as legal reserve, until it is equal to share capital. If the Company incurred profit for the year, the meeting of shareholders shall decide on the distribution of the statutory earnings reserve either by issuing new shares or by paying cash, of up to 25 percent of the actual share capital.

2) Special reserve

In accordance with Permit No. 1010012865 as issued by the Financial Supervisory Commission on April 6, 2012, a special reserve equal to the contra account of other shareholders' equity is appropriated from current and prior period earnings. When the debit balance of any of the contra accounts in the shareholders' equity is reversed, the related special reserve can be reversed. The subsequent reversals of the contra accounts in shareholders' equity shall qualify for additional distributions.

3) Earnings Distribution

On June 21, 2018, and June 20, 2017, the Company's shareholder's meeting resolved to appropriate the 2017 and 2016 earnings. These earnings were appropriated or distributed as follows :

	<u>2017</u>	<u>2016</u>
Common stock dividends per share (dollars)		
—Cash	<u>\$ 4.00</u>	<u>5.00</u>

Exercise during the period	-	-
Outstanding as of September 30	<u>550</u>	<u>\$ 59.79</u>
Weighted-average fair value of the options granted	<u>\$ 15.4</u>	

The expense resulting from the share-based payment transactions was as follows :

	<u>For the nine months ended September 30</u>
	<u>2017</u>
Equity-settled share-based payment	<u>\$ 8,470</u>

(vi) Compensated restricted stock to employee of KINSUS

- 1) On May 29, 2018, pursuant to the resolution of its shareholders during their meeting, KINSUS will issue 5,500 thousand new restricted shares of stock to those employees who meet certain requirement of KINSUS. The restricted shares of stock have been registered with and approved by the Securities and Futures Bureau of the Financial Supervisory Commission, R.O.C. On July 30, 2018, Board of Directors of KINSUS approved to issue 4,947 thousand shares of restricted stock. The record date for the capital increase through issuance of restricted shares of stock was August 28, 2018, and 4,841 thousand shares were actually issued for such award with fair value of NT\$49.1 each at grant date.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Employees with restricted stock awards are entitled to purchase shares at the price of NT\$10 per share, and the vesting conditions were as follows :

<u>Vesting conditions</u>	<u>Vested percentage of restricted stock</u>
One month from grant date	20 %
April 25, 2019	20 %
September 25, 2019	15 %
April 25, 2020	15 %
September 25, 2020	15 %
April 25, 2021	15 %

The restricted obligation before vested was as follows :

- a) The restricted stock is kept by a trust before being vested. These shares shall not be sold, pledged, transferred, gifted, or disposed of by any other means to third parties during the custody period.
- b) Upon the issuance of the restricted stock, it shall be kept by a trust immediately. Before the vesting conditions have been met, there shall not be any reason or way to request trustee returning the restricted stock.
- c) The restricted stock can participate in the distribution of cash dividend and stock dividend in the vesting period.
- d) The voting rights of these shareholders are executed by the custodian, and the custodian will act based on law and regulations.

On August 28, 2018, KINSUS issued restricted shares of stock to employees totaling 4,841 thousand shares, which were charged to capital surplus of \$184,529. As of September 30, 2018, KINSUS has deferred compensation cost arising from issuance of restricted stock of \$132,751.

- 2) The expense resulting from the share-based payment transactions was as follows :

	<u>For the three months ended September 30</u>	<u>For the nine months ended September 30</u>
	<u>2018</u>	<u>2018</u>
Equity-settled share-based payment	<u>\$ 52,746</u>	<u>52,746</u>

- 3) Cancellation or amendment to share-based payment transactions

KINSUS did not made any cancellation or amendment to share-based payment transactions for the nine months ended September 30, 2018.

	<u>\$ 336,867,785</u>	<u>816,247,515</u>

Please refer to Note 6(z) for details on revenue for the three months and the nine months ended September 30, 2018.

(ab) Remuneration of employees and directors

Based on the amended Company's Articles of Incorporation, remuneration of employees and directors are appropriated at the rate of at least 7% and no more than 0.7% of profit before tax, respectively. Prior years' accumulated deficit is first offset before any appropriation of profit. Employees of subsidiaries may also be entitled to the employee remuneration of the Company, which can be settled in the form of cash or stock.

For the three months and the nine months ended September 30, 2018 and 2017, remuneration of employees of \$242,000, \$300,000, \$626,000 and \$896,000, respectively, and remuneration of directors of \$24,000, \$30,000, \$62,000 and \$87,000, respectively, were estimated on the basis of the Company's net profit before tax, excluding the remuneration of employees and directors of each period, multiplied by the percentage of remuneration of employees and directors as specified in the Company's Articles of Incorporation. Such amounts were recognized as operating cost or operating expense for the nine months ended September 30, 2018 and 2017. Management is expecting that the differences, if any, between the actual distributed amounts and estimated amounts will be treated as changes in accounting estimates and charged to profit or loss. The number of shares to be distributed were calculated based on the closing price of the Company's ordinary shares, one day prior to Board of Directors meeting.

For the years ended December 31, 2017 and 2016, the Company accrued remuneration of employees of \$1,188,000 and \$1,734,000, respectively, and remuneration of directors of \$115,000 and \$166,000, respectively. There was no difference between the amounts approved in Board of Directors meeting. For further information, please refer to Market Observation Post System.

(ae) Financial instruments

(i) Credit risk

1) Exposure to credit risk

The carrying amount of financial assets represents the Group's maximum credit exposure.

2) Credit risk concentrations

As of September 30, 2018, December 31, 2017, and September 30, 2017, the accounts receivable from the Group's top three customers amounted to \$102,879,305, \$92,809,599 and \$140,613,423, representing 61%, 61% and 73% of accounts receivable, respectively, which exposes the Group to credit risk.

3) Accounts receivable of credit risk

Please refer to Note 6(f) for notes and accounts receivable of credit risk exposure. Please refer to Note 6(g) for the detail of other receivables and allowance for impairment during 2017.

All of these financial assets are considered to be low risk, and thus the impairment provision recognized during the period was limited to 12 months expected losses. (Please refer to Note 4(h) for the Group determines whether credit risk is to be low risk).

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, accounts receivable, other receivables, loans, accounts payable and other payables that are denominated in foreign currency. A 1% of appreciation or depreciation of each major foreign currency against the Group's functional currency as of September 30, 2018 and 2017 would have increased (decreased) the before-tax net income for the nine months ended September 30, 2018 and 2017 by \$117,973 and \$144,154, respectively. The analysis assumes that all other variables remain constant. The analysis is performed on the same basis for both periods.

As the Group deals in diverse foreign currencies, gains or losses on foreign exchange were summarized as a single amount. For the three months and the nine months ended September 30, 2018 and 2017, the foreign exchange gains (losses), including both realized and unrealized, amounted to \$(140,719), \$(32,797), \$399,774 and \$(1,180,119), respectively.

2) Interest rate analysis

The interest risk exposure from financial assets and liabilities has been disclosed in the note of liquidity risk management.

The following sensitivity analysis is based on the risk exposure to interest rates on the derivative and non-derivative financial instruments at the reporting date. For variable rate instruments, the sensitivity analysis assumes the variable rate liabilities are outstanding for the whole year at the reporting date. The Group's internal management reported the increases/decreases in the interest rates and the exposure to changes in interest rates of 1% is considered by management to be a reasonable change of interest rate.

If the interest rate increases / decreases by 1%, the Group's net income will decrease /increase by \$168,348 and \$74,804 for the nine months ended September 30, 2018 and 2017, respectively, assuming all other variable factors remain constant. This is mainly due to the Group's variable rate borrowing.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

3) Other market price risk

If the equity price changes, the impact of equity price change to other comprehensive income will be as follows, assuming the analysis is based on the same basis for both years and assuming that all other variables considered in the analysis remain the same :

	For the nine months ended September 30			
	2018		2017	
	Comprehensive Income (Loss) (net of tax)	Net Income (Loss) (net of tax)	Comprehensive Income (Loss) (net of tax)	Net Income (Loss) (net of tax)
Increase 3%	\$ 24,248	38,976	45,086	7,242
Decrease 3%	\$ (24,248)	(38,976)	(45,086)	(7,242)

(iv) Fair value of financial instruments

The Group measured its financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income (available-for-sale financial assets) on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows ; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and for equity investments that has no quoted prices in the active markets and whose fair value cannot be reliably measured, disclosure of fair value information is not required :

1) Categories of financial instruments and fair value hierarchy

2) Valuation techniques for financial instruments not measured at fair value :

The assumptions and methods used in valuing financial instruments that are not measured at fair value are as follows :

a) Financial assets and liabilities measured at amortized cost

Fair value measurement for financial assets and liabilities is based on the latest quoted price and agreed-upon price if these prices are available in active market. When market value is unavailable, fair value of financial assets and liabilities are evaluated based on the discounted cash flow of the financial assets and liabilities.

3) Valuation techniques for financial instruments measured at fair value :

a) Non-derivative financial instruments

Financial instruments trade in active markets is based on quoted market prices.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

If quoted price of a financial instrument can be obtained in time and often from exchanges, brokers, underwriters, industrial union, pricing institute, or authorities and such price can reflect those actual trading and frequently happen in the market, then the financial instrument is considered to have quoted price in active market. If a financial instrument does not accord with the definition aforementioned, then it is considered to be without quoted price in active market. In general, market with low trading volume or high bid-ask spreads is an indication of non-active market.

Measurements of fair value of financial instruments without active market are based on valuation technique or quoted price from competitor. Fair value measured by valuation technique can be extrapolated from similar financial instruments, discounted cash flow method or other valuation technique which include model calculating with observable market data at the balance sheet date.

b) Derivative financial instruments

It is based on the valuation model accepted by the most market users, ex: Discount rate and option pricing model. Forward exchange agreement is usually based on the current forward rate.

Fair value of structured financial instruments is based on appropriated valuation model, ex: Black-Scholes model, or other valuation model, ex: Monte Carlo simulation.

4) Transfers between Level 1 and Level 2

There have been no transfers from each level for the nine months ended September 30, 2018 and 2017.

5) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include "financial assets measured at fair value through profit or loss – equity investments" and "financial assets measured at fair value through other comprehensive income(available-for-sale financial assets) – equity investments".

Most of the Group's financial assets in Level 3 have only one significant unobservable input, while its financial assets at fair value through other comprehensive income-equity investments without an active market have more than one significant unobservable inputs. The significant unobservable inputs of financial assets at fair value through other comprehensive income-equity investments without an active market are individually independent, and there is no correlation between them.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Quantified information of significant unobservable inputs was as follows :

<u>Item</u>	<u>Valuation technique</u>	<u>Significant unobservable inputs</u>	<u>Inter-relationship between significant unobservable inputs and fair value measurement</u>
Fair value through profit or loss-equity investments without an active market	Market Approach	<ul style="list-style-type: none"> ·The multiplier of price-to-book ratio (As of September 30, 2018 and December 31, 2017, were 0.9) ·Market illiquidity discount (As of September 30, 2018 and December 31, 2017, were 80%) 	<ul style="list-style-type: none"> The estimated fair value would increase (decrease) if: ·the multiplier were higher (lower) ·the market illiquidity discount were lower (higher).
Fair value through other comprehensive income (Available-for-sale financial assets)- equity investments without an active market	Market Approach	<ul style="list-style-type: none"> ·The multiplier of price-to-book ratio (As of September 30, 2018 and December 31, 2017, were 1.8~6.1) ·Market illiquidity discount (As of September 30, 2018 and December 31, 2017, were 80%) 	"

- 6) Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

The Group's measurement on the fair value of financial instruments is deemed reasonable despite different valuation models or assumptions may lead to different results.

For fair value measurements in Level 3, changing one or more of the assumptions would have the following effects on profit or loss and other comprehensive income :

	<u>Inputs</u>	<u>Fluctuation in inputs</u>	<u>Profit or loss</u>		<u>Other comprehensive income</u>	
			<u>Favour-able</u>	<u>Unfavour-able</u>	<u>Favour-able</u>	<u>Unfavour-able</u>
September 30, 2018						
Financial assets at fair value through profit or loss						
Equity investments without an active market	Multiplier of price-to-book ratio	1%	1,270	(1,270)	-	-
Equity investments without an active market	Market illiquidity discount	1%	1,270	(1,270)	-	-
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Multiplier of price-to-book ratio	1%	-	-	2,795	(2,795)
Equity investments without an active market	Market illiquidity discount	1%	-	-	2,795	(2,795)

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

	Inputs	Fluctuation in inputs	Profit or loss		Other comprehensive income	
			Favour- able	Unfavour- able	Favour- able	Unfavour- able
December 31, 2017						
Financial assets carried at cost						
Equity investments without an active market	Multiplier of price-to-book ratio	1%	-	(3,505)	-	-
Equity investments without an active market	Market illiquidity discount	1%	-	(3,505)	-	-

The favourable and unfavourable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the interrelationships with another input.

(v) Offsetting of financial assets and financial liabilities

The Group has financial assets and liabilities which are subject to the guidance concerning financial instrument transactions under paragraph 42 of IAS 32 as endorsed by the Financial Supervisory Commission. These financial assets and liabilities are presented on a net basis in balance sheet.

The following table presents the recognized financial instruments that are subject to offsetting agreement or contract and have legally enforceable right to set off :

September 30, 2018						
Financial assets subject to offsetting agreement or contract and have legally enforceable right to set off.						
	Gross Assets (a)	Gross Liabilities Offset (b)	Net amounts presented (c)=(a)-(b)	Amounts not offset (d)

	Gross Liabilities (a)	Gross Assets Offset (b)	Net amounts presented (c)=(a)-(b)	Amounts not offset (d)		
				Financial Instruments	Cash collected as pledge	Net amounts (e)=(c)-(d)
Accounts Receivable and Payable	\$ 30,605,908	30,605,908	-	-	-	-

Note : The master netting arrangement and non-cash collateral were included.

(af) Financial risk management

There were no significant changes in the Group's financial risk management and policies as disclosed in Note 6(ab) of the consolidated financial statements for the year ended December 31, 2017.

(ag) Capital management

Management believes that there were no changes in the Group's approach to the targets, policies and procedures in capital management as disclosed in the consolidated financial statements for the year ended December 31, 2017. Also, they believe that for the nine months ended September 30, 2018, there were also no changes in the Group's capital management information. Please refer to Note 6(ac) of the consolidated financial statements for the year ended December 31, 2017 for other related information.

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ah) Financing activities not affecting current cash flow

The Group's financing activities which did not affect the current cash flow in the nine months ended September 30, 2018, were as follows :

Reconciliation of liabilities arising from financing activities were as follows :

	January 1, 2018	Cash flows	Non-cash changes		September 30, 2018
			Foreign exchange movement	Other	
Long-term loans	\$ 8,062,112	3,940,335	162,084	-	12,164,531
Short-term loans	46,058,620	21,250,559	-	-	67,309,179
Bonds payable	6,992,476	7,992,000	-	1,714	14,986,190
Non-controlling interests	<u>33,748,072</u>	<u>4,222,837</u>	<u>(348,032)</u>	<u>(1,629,067)</u>	<u>35,993,810</u>
Total liabilities from financing activities	<u>\$ 94,861,280</u>	<u>37,405,731</u>	<u>(185,948)</u>	<u>(1,627,353)</u>	<u>130,453,710</u>

(7) Related-party transactions:

(a) Names and relationship with related parties

The following are entities that have had transactions with related parties and the Group during the periods covered in the consolidated financial statements.

<u>Name of related party</u>	<u>Relationship with the Group</u>
HONGJIE (SUZHOU) PACKING LIMITED	Other related party (Note)

Note : On June 29, 2018, the Group disposed common stocks of HONGJIE (SUZHOU) PACKING LIMITED, so that the Group lost its significant influence. Consequently, HONGJIE (SUZHOU) PACKING LIMITED was not related party of the Group from that date on.

(b) Significant transactions with related parties

(i) Purchase of Goods from Related Parties

The amounts of significant purchase transactions and outstanding balances between the Group and related parties were as follows :

	Purchases				Payables to related parties		
	For the three months ended September 30		For the nine months ended September 30		September 30, 2018	December 31, 2017	September 30, 2017
	2018	2017	2018	2017			
Other related parties \$	-	-	-	88	-	14	14

There were no significant differences between the terms and pricing of purchase transactions with related enterprises and those carried out with other normal vendors. The average payment period for notes and accounts payable pertaining to such purchase transactions ranged from one to four months, which is similar to that of other normal vendors.

(Continued)

		<u>\$ 1,207,630</u>	<u>252,199</u>	<u>268,935</u>

(9) Significant commitments and contingencies:

(a) Significant commitments and contingencies were as follows :

(i) Unused standby letters of credit

	<u>September 30, 2018</u>	<u>December 31, 2017</u>	<u>September 30, 2017</u>
EUR	\$ 2,273	2,589	2,589
JPY	2,049,380	2,968,349	8,374,192
USD	5,114	5,853	11,024

(Continued)

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(ii) Promissory notes and certificates of deposit obtained for business purpose were as follows :

	September 30, 2018	December 31, 2017	September 30, 2017
NTD	\$ 51,420	78,998	80,398

(iii) As of September 30, 2018, December 31, 2017, and September 30, 2017, the significant contracts for purchase of properties by the Group amounted to \$22,270,945, \$24,033,496 and \$19,488,754, of which \$6,169,736, \$10,860,011 and \$8,467,163, respectively, were unpaid.

(iv) As of September 30, 2018, December 31, 2017, and September 30, 2017, the Group provided endorsement guarantee for bank loans obtained by the related parties, including Group entities, amounting to \$1,282,051, \$3,779,520 and \$4,976,196, respectively.

(v) As of September 30, 2018, December 31, 2017, and September 30, 2017, the Group issued a tariff guarantee of \$1,608,969, \$1,689,442 and \$882,444, respectively, to the bank for the purpose of importing goods.

(b) Significant contingent liability :

In May 2017, QUALCOMM INCORPORATED filed a lawsuit against the Group for royalty payment under the license agreement in the U.S. District Court for the Southern District of California. In July 2017, the Group counterclaimed. The outcome of this lawsuit depends on court proceedings and is not expected to have a material effect on the Group's operation.

(10) Losses due to major disasters: None.

(11) Subsequent events: None

(12) Other:

The nature of employee benefits, depreciation and amortization expenses categorized by function, were as follows :

By function	For the three months ended September 30					
	2018			2017

	2018	2017	2018	2017
Depreciation in investment property \$	788	792	2,407	2,353

(13) Segment information:

(a) General Information

The Group's operating segments required to be disclosed are categorized as DMS (Design, Manufacturing and Service) and Strategic Investment Group. DMS's main operating activities are designing and manufacturing computer, communication and consumer electronics' end products, and providing after-sales service. Strategic Investment Group is DMS's upstream and downstream supply chain, strategic investments and other related investments arms. The chief operating decision maker's main responsibility is to integrate strategy that creates operating synergy throughout the supply chain and to allocate the profit from the operating result. The Group assesses performance of the segments based on the segments' profit, and report the amounts of revenues based on the financial information used to prepare the consolidated interim financial report.

(b) Reportable segment profit or loss, segment assets, segment liabilities, and their measurement and reconciliations

The Group uses the internal management report that the chief operating decision maker reviews as the basis to determine resource allocation and make a performance evaluation. The internal management report includes profit before taxation, excluding any extraordinary activity and foreign exchange gains or losses, because taxation, extraordinary activity and foreign exchange gains or losses are managed on a group basis, and hence they are not able to be allocated to each reportable segment. In addition, not all reportable segments include depreciation and amortization of significant non-cash items. The reportable amount is similar to that in the report used by the chief operating decision maker.

PEGATRON CORPORATION AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The operating segment accounting policies are similar to the ones described in Note 4 “Significant accounting policies” except for the recognition and measurement of pension cost, which is on a cash basis. The Group treated intersegment sales and transfers as third-party transactions. They are measured at market price.

Please refer to Note 6(z) for information on revenue for the three months and the nine months ended September 30, 2018. The Group’s operating segment information and reconciliation were as follows :

<u>For the three months ended September 30, 2018</u>	<u>DMS</u>	<u>Strategic Investment Group</u>	<u>Adjustment and eliminations</u>	<u>Total</u>
Reportable segment profit or loss	\$ <u>3,072,992</u>	<u>(3,694,300)</u>	<u>4,209,838</u>	<u>3,588,530</u>
